Hi Sasha, here is another file with several periods of NH3 emissions monitored on a forage stand. Details can be found in the attached Excel file, and in the related paper attached.

I hope to be able to prepare a third file today or tomorrow.

I am leaving the office for 5 weeks at the end of this week. Will be back on August 4.

Cheers.

Martin

Hi Martin

Thank you for your messages and I apologize for not getting back to you—I've been travelling a lot (working on getting ALFAM2 data, and having some success).

I'm sorry to hear that you won't be able to attend the fall meeting (but of course it is understandable). Yes, let's try to include you via Webex for at least part of it.

On your data, I haven't gotten back to it yet, but yes, you can send other files as soon as they are available. I'm planning on getting back to your data next week.

Best regards,
Sasha

Hi Sasha, I will not be able to attend in person...the only possibility for me would through remote systems as Webex

Cheers.

Martin

Objet : ALFAM2, fall meeting dates

Dear all,

As discussed at our last meeting, we will have a meeting in the fall to discuss the database we've created and the next steps. If you would like to attend, could you take a few minutes before next Friday (20 June) to let us know what dates work for you by completing this poll: <https://www.surveymonkey.com/s/GNNBMYJ?>

Best regards,
Sasha
