Subject: RE: Question on ALFAM2 data

Hi Sasha

The blank cells are zeros and there is nothing special about the colours

Cheers

John

Subject: Question on ALFAM2 data

Hi John and Tom,

One question that has come up: in your rain data, there are both zeroes and blank cells. Are the blank cells truly missing, or should we interpret them as zero rain? Additionally, there are some blue zeroes (e.g., AO94, AO101). Is there anything special about these?

Best regards,
Sasha
